## Officials Learn Names of Score of Masked Mob

\*\*\*\*\*

**Evidence linking more than a score of men to the Ingewood mob outrage was placed at the disposal of the District Attorney's office yesterday by a man who was invited to join the Ku Klux Klan in Ingewood just before the raid and who heard the plans for the raid discussed at the meeting held under the leadership of Kiegle N. A. Baker, confessed leader of the expedition.**

This was learned at the Hall of Records yesterday coincidentally with the announcement by Grand Goblin William S. Colburn, head of the Ku Klux Klan on the Pacific Coast, that he and his fellow Klansmen are now completing arrangements for surrendering in a body every man who participated in the Ingewood raid, whether a Klansman or not.

The evidence, considered of great importance by the officials, is said to supply testimony independent of the offer of the Grand Goblin to produce the men, and is considered sufficient to furnish the basis for the grand jury investigation, scheduled to start here this week.

**IDENTITY SECRET**  
Great secrecy surrounds the identity of the witness who supplied this information to Dist. Atty. Woolwine and Chief Deputy Attorney General. The man was brought to the District Attorney's office by Undersecretary Bland and Assistant Superintendent of Criminal Investigation Hotz, the two officers assigned by Sheriff Baker to handle the investigation out of the Sheriff's office.

The man, according to his story, attended the meeting held in Ingewood the night before the raid, but he did not join the mob. He refused to do so. Plans for the raid were discussed in his presence. The following evening this man went to the vicinity of the Fidelity Union home and witnessed the raid from the "sideline." He was able to remember about twenty men who participated in the affair, he is said to have told the authorities.

**ACT IN BAKERSFIELD**  
The location of this witness, which was the most important development in the Ku Klux Klan investigation here, was accomplished by an equally significant action in Bakersfield, where the Kern county authorities are now holding a grand jury investigation into the activities of the hooded organization.

Capt. Walter Hunter, head of Dist. Atty. Woolwine's detective forces, who commanded the detectives during the raid on the office of the Ku Klux Klan, Capt. Hunter will make the trip to Bakersfield with a heavy armed guard, to prevent the possibility of an attack in an attempt to take from him the documents in his possession.

Reports from Bakersfield last night indicated that action against the Klan was being taken.

**CLAN NAMES PUBLISHED**  
FRESNO, May 1.—Fresno and Hanford were thrown into intense excitement today following the release by Dist. Atty. H. W. Gearhart of twenty-six names of Hanford Ku Klux Klansmen and twenty Fresno Klansmen, among them a number of prominent business and professional men. It is understood that another list will be released tomorrow morning and that the process will be continued until the entire membership has been revealed here.

"I believe the Ku Klux Klan to be an organization whose purposes and motives are detrimental to the community and for that reason I am unmasking it locally by publishing the names of the members who reside in Fresno. It has been proved in other communities that they are guilty of criminal action and all members through their affiliation are responsible for the actions of the organization at large. I have no charge to prefer against them and do not intend to prefer any. I am merely unmasking the Klan."

That was the statement made by Dist. Atty. Gearhart this afternoon when asked his purpose and motive in publishing the names of the members of the Klan as obtained by him from Dist. Atty. Woolwine of Los Angeles county.

Asked when he intended publishing the remaining names on the list, he said he would publish them as soon as he was ready to do so. He said he was ready to do so. He said he was ready to do so. He said he was ready to do so.

**Summer Girl Riot of Color, Fashion Edict**  
NEW YORK, May 1.—The summer girl this year will be a riot of colors, according to one of the best known authorities on dress.

"A dress rainbow, more or less, will have nothing on the American summer girl," says the current Dry Goods Economist. "It is now definitely settled that she will be visible a mile away from a given point of observation."

"Each of the primary colors, red, yellow and blue, and the secondary colors, green, orange and violet, representing the strongest hues possible to dye, will be worn. Not infrequently they will be worn with white, which in many cases serves to intensify, by striking contrast, any of the foregoing fashions."

**SPANIARDS BEATEN BY MOROCCO TRIBESMEN**  
LONDON, May 1.—Spanish troops have suffered a severe reversal at the hands of Moroccan tribesmen, a Central News dispatch from Madrid said tonight. It had been learned there unofficially.

**TANKER TOTAL WRECK**  
Crew of Whittier of Los Angeles Abandons Steamer When She Crashes on Reef Near Point Arenas

SAFETY, May 1.—Twenty-six officers and men of the tank steamer Whittier of Los Angeles, owned by the Union Oil Company, battled for three hours in small boats in the open sea this morning off Point Arenas, where the craft hit on the rocks in the heavy fog and was a total loss. The twenty-six men were saved by the steam schooner Brunswick and are due to arrive in San Francisco tomorrow morning.

Wireless calls were flashed from the Whittier as she lay pounding on the rocks off Point Arenas. The nearest vessel answering the S.O.S. was the Coast Guard cutter Shawnee, which was cruising about seventy miles away. This vessel and the tug Sea Monarch answered the call for help, but it was the little steam schooner Brunswick that needed her through the dangerous waters and picked up the officers and crew.

The Whittier, a vessel of 1235 gross tons, valued at \$150,000 and carrying a cargo of fuel oil worth \$15,000, was ripped open almost from stem to stern when she crashed on the sharp submerged rocks. With the first crash, which occurred in the black fog shortly after 2 a.m., Peter Hendrix, radio operator, began flashing S.O.S. calls.

Failure of the Whittier's wireless calls to carry to the shore, reports being received from her plight and that of her crew.

The last report received from the Whittier at 4:50 a.m. said: "On rocks, near Point Arenas. Radio operator ordered on deck. Ship is sinking. Help!"

Fragmentary bits of wireless from the Whittier received by different ships and relayed to San Francisco would indicate that the vessel is doomed as a total loss. Her sides and bottom were ripped and smashed, causing her to settle to such an extent as to make salvaging improbable. The oil cargo is also regarded as entirely lost.

The Whittier left Los Angeles Harbor Friday night for Eureka.

**WOMAN MURDER SUSPECT**  
CLEVELAND, May 1.—A woman who County Prosecutor Stanton says is suspected of committing a series of murders in order to collect \$11,000 insurance is held in jail tonight.

The woman is known to have been married five times and is said to have acquired a sixth husband recently. She divorced her first two husbands, while three others died under mysterious circumstances, according to Stanton.

**FRIEDMAN KILLS SELF**  
SAN BERNARDINO, May 1.—Law Friedman, said to have been one of the cleverest dice experts in the country, is dead by his own hand, the hand that rolled "seven" and "eleven" for nearly \$50,000 in the last twenty years. Friedman cheated for the first time in his life when he shot himself as fate was shaking the dice. He could have lived but a few days longer.

**REASONS FOR MERGER**  
One of the principal reasons for the merger, it was learned today, was due to the fact that the Crocker bank has no trust organization of its own. Consolidation with the First National Bank and the Federal Trust Company and the latter's subsidiary will have the effect of strengthening the resources of the merged institution and at the same time furnishing both former organizations with a trust center.

Already speculation is rife in the city.

**PLAN GREAT BANK MERGER**  
First National, Federal Trust and Crocker Organizations of Bay City Likely to Join

SAFETY, May 1.—Resources of approximately \$100,000,000 will be merged into one huge fund, representing the capitalization of a new San Francisco banking institution, if negotiations now under way for the consolidation of the First National Bank of San Francisco and its subsidiary, the Federal Trust Company, with the Crocker National Bank are finally approved.

Directors of the Crocker National Bank have already officially approved the consolidation negotiations and the directors of the other institutions will hold meetings on Wednesday for special consideration of the plan.

**PRELIMINARIES DECIDED**  
According to Mark L. Regan, California capitalist, promoter and banker, who has been the principal organizer in the huge consolidation scheme, the negotiations will probably be finally approved before the end of the week. He said today that it is likely that the deal will be closed within the next two days. All of the preliminaries have been thoroughly discussed and agreed upon by two committees composed of John F. Brooks and E. Avenall on behalf of the First National Bank and the Federal Trust Company and J. B. McCargill and James J. Pagan for the Crocker National Bank. It was admitted today by Regan and other banking officials involved in the deal.

Plans of the three institutions will require approximately \$20,000,000 capital in addition to the amounts which will be subscribed by the individual institutions.

According to present plans the allotments will be as follows: Crocker National Bank, \$48,000,000; First National Bank, \$28,000,000; First Federal Trust Company, \$24,000,000.

**LASH IN CHINA WORRIES ALLIES; CLOSE TO PEKING**

BY CHARLES DAILEY  
(BY CABLE-EXCLUSIVE DISPATCH.)

TIENTSIN, May 1.—The fighting between the forces of Chang Tao Ling, the Mukden war lord, and Wu Pei Fu, of the Central Chinese provinces, is increasing in intensity. The three points of attack are principally around Feng Tai outside Peking, where the combat is assuming a vicious character. Chang is bringing up reinforcements. Chang has massed troops at Feng Tai, due to the pressure on his line, which still holds.

Eighty dead and wounded were brought to the Feng Tai station today.

The artillery fire was heavy in the Langfang and Machang districts, but no details have been received here yet.

**OUR WIRE TAPPERS IN LAW'S NET**

Indicted for Wire Secured Divorce

ALBANY, N.Y., May 1.—A man of four wire tapping devices, which were used to obtain evidence in a divorce case, was indicted today by the grand jury.

The man, who was named in the indictment, was charged with securing the wire tapping devices from a telephone company official.

### PLACE BLAME ON DEMOCRATS

#### Show Real Cause of Delay in the Tariff

Republicans Will Refrain from Debate

Senators Told to Keep Out of the Road

(REUTERS DISPATCH.)  
WASHINGTON, May 1.—Re-  
publicans in the Senate celebrated  
May Day by a decision to put the  
sole responsibility for delay in en-  
acting the tariff upon the Demo-  
crats. Some of the most influen-  
tial leaders of the party in the  
Senate held a little informal con-  
ference during the early part of  
the day and decided to refrain  
from any debate on the schedules  
of the tariff bill as reported by  
the Senate Finance Committee. De-  
lay in arriving at final action will  
therefore be traceable in the re-  
cord to the contentions of the De-  
mocrats and to them alone.

**WILL FORCE HANDS**  
Many of the Republicans doubt  
the sincerity of the Democrats  
when they state that there is to  
be no filibuster or other imped-  
iment to the passage of the tariff  
act and by total abstinence from  
debate propose to force the hand  
of the Democrats so that the vot-  
ers will have no difficulty in fix-  
ing the responsibility.

Ever since Senator McCumber  
called attention of the Senate to  
the fact that it had been engaged  
for almost three weeks on the  
provision of the tariff relating to  
the importation of common vin-  
egar and that the progress of the  
bill was ridiculously slow, there  
has been a growing feeling that  
the blame for this delay should be  
placed where it belongs and hence-  
forth the Republicans in all tariff  
debates in the Senate will be con-  
spicuous by their absence.

**WOULD PROLONG DEBATE**  
It is alleged by some of the  
leaders that the plan of the De-  
mocrats was to prolong the debate  
so that Congress would have to re-  
main in session all summer to pre-  
vent the tariff bill from passing  
in conference between the house  
and a deadlock over some of the  
more important essentials. With  
the large Republican majorities in  
both houses, this state of affairs  
is something that could not be  
tolerated by the Republicans, and  
they are determined not to aid in  
any such plan of delay.

All the Republican leaders of the  
Senate are now planning to end  
the session by July 15, in order  
to have a free hand in the forth-  
coming Congressional and Sena-  
torial campaigns and the organ-  
ization being perfected to accom-  
plish this object has every ap-  
pearance of being powerful enough to  
accomplish its purpose.

**TRYING TO PREVENT SWINDLES IN LIQUOR**

NEW WITHDRAWAL PERMIT AND PHYSICIAN BLANKS ISSUED

(BY A. P. MONT WIRE.)  
WASHINGTON, May 1.—Adop-  
tion of a new form of permit for  
the withdrawal of liquor from  
bond, and new physician's blanks,  
designed to eliminate the pos-  
sibility of either documents being  
counterfeited, was announced to-  
day by Commissioner Haynes.  
These new forms, Mr. Haynes said,  
are printed on specially designed  
sensitized, water-marked paper,  
and from plates bearing a water-  
mark seal of the Treasury De-  
partment and the word "prohibi-  
tion" water-marked on each.

As a still further step against  
counterfeits, he declared, the  
prohibition bureau has adopted a  
machine which resembles a  
check protector, which will im-  
press upon each withdrawal permit  
the amount of liquor to be released  
to prevent their being raised after  
issuance.

**MAN SHOTS WIFE TO KEEP HER STILL**

DIDN'T WANT WOMAN TO TESTIFY AT CRUELTY HEARING

(REUTERS DISPATCH.)  
CHICAGO, May 1.—When Mrs.  
Winifred O'Toole was called today  
to testify against her husband for  
repeated cruelty she did not re-  
spond. At that moment she was  
undergoing an emergency operation  
to remove a bullet from her back.  
She is in a critical condition and  
is not likely to survive.

Michael O'Toole, her husband,  
objected to her testifying against  
him, but when she insisted, he an-  
nounced that he knew a way to  
prevent her, so he shot her. Ac-  
cording to the police, this is the  
second time he has shot her.

### Military Camp Vice Repression Sought in Bill

(BY A. P. MONT WIRE.)  
WASHINGTON, May 1.—A bill  
to enlarge the powers and duties  
of the Department of Justice in  
relation to repression of social  
vice adjacent to Army and Navy  
camps and properties, was intro-  
duced today by Chairman Kahn  
of the House Military Committee.  
The department would be di-  
rected under the bill to act in-  
dependently.

### NEW MACHINE GUN TERROR TO BANDITS

(REUTERS DISPATCH.)  
NEW YORK, May 1.—A motor-  
cycle with sidecar equipped with  
the new Thompson machine gun,  
the invention of Brig.-Gen. J. T.  
Thompson, director of armaments  
of the United States Army during  
the war, will be one of the fea-  
tures of the New York police  
parade on the 15th inst. The  
weapon, known also as the "anti-  
bandit gun" can fire 1000 shots a  
minute and is capable of taking  
an automobile in pieces at a dis-  
tance of 500 yards.

The gun is being constructed  
for adoption by the police in a  
"command of the road" plan in  
which radio-telephony is the chief  
feature. Under the plan a special  
radio wave length would be re-  
served for use of police depart-  
ments and radio stations estab-  
lished along the principal high-  
ways through which alarms would  
instantly broadcast. Fast motor-  
cycles equipped with the  
Thompson gun, or a similar weap-  
on could then, in the opinion of  
Gen. Thompson, scour the terri-  
tory, affording little opportunity for  
the escape of automobile bandits.

**BONDSMEN SURRENDER**  
**GEORGE GRAHAM RICE**

STOCK PROMOTER AGAIN IN TOMBS PRISON; AWAITS APPEAL OF CASE

(REUTERS DISPATCH.)  
NEW YORK, May 1.—George  
Graham Rice, blue-sky stock  
manipulator and former race-  
track tipster, who has served two  
terms in this State for mining and  
oil-stock promotions and is well  
known in several other States, is  
again in Tombs prison.

Rice, who was born in this city  
under the name of Jacob Simon  
Harris, in 1876, was surrendered  
to the police today by Edward Mc-  
Laughlin, who, with his wife, had  
acted as surety on a bail bond of  
\$25,000 under which the prisoner  
was released more than two years  
ago.

In January, 1920, Rice was con-  
victed of appropriating \$750 from  
R. W. Hartman of Mansfield, O.,  
and charged with did not pur-  
chase ten shares of the common  
stock of the American Car and  
Foundry Company, but took the  
money for his own use. He was  
sentenced to Sing Sing for three  
years. His lawyer obtained a writ  
of reasonable doubt and he was re-  
leased from the Tombs since then  
he has been at liberty pending  
appeal.

At the Tombs Rice, for the first  
time in his career, refused to talk  
for publication.

**TO NEGOTIATE WITH ENGLAND ON DEBT**

NEW COMMISSION LIKELY TO MEET WITH BRITISH IN NEAR FUTURE

(BY A. P. MONT WIRE.)  
WASHINGTON, May 1.—Negotiations between the new Allied  
debt commission and the British  
government, looking to the fund-  
ing of Great Britain's \$5,000,000-  
000 debt to this country, may be  
begun this week, it was said to-  
day at the treasury.

No arrangements have yet been  
made for a meeting of the com-  
mission with representatives of  
Great Britain, high officials de-  
clared, but they indicated the pos-  
sibility of early development in  
the line of funding discussions.  
Secretary Hughes and Ambassa-  
dor Geddes, it is understood,  
have discussed informally the  
question of funding negotiations  
between Great Britain and this  
country, although as yet no defi-  
nite date for their initiation has  
been set. So far as the treasury  
has been advised, Ambassador  
Geddes probably will represent  
Great Britain, unless a special  
commission is sent from England  
for the negotiations.

## VERDICT SHOCKS SHIPPING BOARD

Fleet Corporation Can be Sued, Court Holds

Decision Clears Up Three Appealed Cases

Chief Justice Taft and Two Others Dissent

(BY A. P. MORTIMER.)  
WASHINGTON, May 1.—The Emergency Fleet Corporation of the United States Shipping Board, a corporation organized under the laws of the District of Columbia, can be sued in the Federal and State courts, without its consent, and does not have the immunity of a government department or board, the Supreme Court held today in an opinion delivered by Justice Holmes, to which the Chief Justice and Justices Van Devanter and Clark dissented in an opinion delivered by Mr. Taft.

**THREE CASES DECIDED**  
The question was presented to the court in three cases: in two which were against the Steam Navigation Corporation and others of the State of Washington and the Alaska Marine Iron Works of Oregon, the government won in the lower courts and in the third, that brought by the United States against the trustees in bankruptcy of the Eastern Shore Shipbuilding Corporation, the government lost in the United States Federal courts of New York City. In the latter case, which involved the priority of the Emergency Fleet Corporation in the assets of a bankrupt corporation, the court was unanimous in holding against the contentions of the government.

The Shipping Act contemplated a corporation in which persons are stockholders and which was to be formed like any business corporation under the laws of the District of Columbia, with capacity to sue and be sued. Justice Holmes stated: "The United States is not the sovereign, but the legal position of the corporation is that of a corporation." "Discussing the 'anomalous powers ultimately given to the Fleet Corporation,' Justice Holmes said: 'It had been suggested that it was so far put in place of the sovereign as to share the immunity of the sovereign from suit otherwise than as the sovereign itself.'"

**DANGEROUS DEPARTURE**  
"But such a notion," he added, "is a very dangerous departure from one of the first principles of our system of law. . . . Supposing the Fleet Corporation to have been given to a single man, we doubt if anyone would contend that such a man would be immune from suit. Congress and the delegations of authority from the President left him any less liable than other grantees of the power of eminent domain to be called upon to defend himself in court."

"While in general the United States cannot be sued for a tort, the opinion stated that 'the immunity does not extend to those noted in its name.'"

Referring to a suggestion that there will be a lack of uniformity if suits can be brought in State courts against the Fleet Corporation, Justice Holmes declared: "This consideration cannot control our conclusion from the statutes."

"But it is not very serious," he added, "since such suits against this corporation can be removed to the courts of the United States and afterwards are subject to review here."

**TAFT DISSENTS**  
Chief Justice Taft, for the majority, stated that "Congress intended that the Fleet Corporation should be subject to suit only as a principal."

"Suits against the Fleet Corporation are, in fact, against the United States," he stated, "and cannot be brought except in the manner and under the procedure provided by the statute for claims for compensation for acts done by authority of the President. The Chief Justice explained, referring to the enormous total involved in suits against the Fleet Corporation, that he believed that such suits should be brought in the Federal courts and not in the State courts."

**UP TO CONGRESS**  
Judgments against the Fleet Corporation will be valueless except as Congress shall conclude to pay them, he added, stating that Congress had taken over all its assets. "Because of the variety of views which probably will obtain in the judgment against the Fleet Corporation," the Chief Justice said, "Congress may be slow to recognize its obligation to pay them and we shall have a repetition of the history of the French spoliation claims, which for many decades occupied the attention of Congress."

The decision of the court would . . .

## PRISONER SAYS HE ROBBED MAN

But Robbed Man Denies the Yellow in Custody is One Who Got His Money

When J. J. Hill, employed by the Standard Oil Company at a filling station at Hobart and Wilshire boulevards, appeared as a witness in the Hineshaw court against Oscar Smith, yesterday, he declared Smith is not the man who robbed him. Smith insisted that he is.

Testimony was added by Dep. Dist. Atty. Powell that Hill was robbed of \$20 and T. O'Donelly, another Standard Oil employee, of \$75. Two other gasoline stations were robbed April 17. Police officers testified that Smith admitted taking part in all four robberies. Duke Stone appeared as attorney for Smith.

The defendant was held to answer, bail being fixed at \$2000. It was brought out by Mr. Stone that Smith aided the officers after his arrest.

The Chief Justice feared, make the existing confusion as to the claims against the Fleet Corporation worse confounded, and should that be the result, he hoped Congress would grant remedial legislation to avoid such an undesirable condition, unfavorable both to the United States and the citizens.

The opinion caused much comment in the United States Shipping Board, but Chairman Lasker and Mr. Schlesinger were out of town and no statement was obtainable from them.

**CHINA ARMIES FIGHTING HARD**  
(Continued from First Page.)  
tends to bear out unofficial estimates as to the size of the two armies contending in the vicinity of Peking. Officials here believe that Gen. Wu Pei Fu's army of 100,000 men has about 50,000 men drawn up in the battle area.

**STRAUSS COMMANDS**  
Under ordinary circumstances authority for the movement of a ship to foreign waters would come through Washington, officials stated in commenting upon the sending of another warship to Tientsin. It was pointed out that Gen. Wu Pei Fu, commander of the Asiatic squadron, has full discretion in dispatching the ships of his fleet to any point in the Far East where it may appear that American lives and property are threatened. In case of unusual emergency jeopardizing the lives and property of Americans in Peking, the American soldiers at Tientsin might be sent to the Chinese capital by Col. Martin, the commandant, without specific authority from Washington, Secretary of War Weeks said today.

**AIDES RECALLED**  
(BY CABLE AND ASSOCIATED PRESS.)  
TOKYO, May 1.—Following the example of the British in recalling aviation instructors from the Mukden army, the Japanese yesterday recalled two colonels and a major attached to Gen. Chang Tso Liang's headquarters as military structures. Minister Obata, who was here from Peking for a conference, left suddenly for his post in view of the reported heavy fighting and the possible danger to foreigners in Peking.

Orders have been issued to the Japanese governor at Tientsin to take the strictest precautions to prevent the landing of a Mukden force at Peking for the purpose of attacking Gen. Wu Pei Fu through Shanghai. It is reported that a large force of Chang's troops has embarked on ships and is destined for Tientsin.

The Japanese government is determined to preserve the strictest neutrality, but it is learned from reliable sources that Dr. Sun Yat Sen is raising a loan of \$20,000,000 at Osaka, pledging railway and lottery concessions in South China.

**FOREIGNERS SAFE**  
(BY CABLE AND ASSOCIATED PRESS.)  
MANILA, May 1.—Col. Charles D. Rhodes, chief of staff of the Philippine department, on his return from China today expressed the opinion that there is little danger of foreign interests being molested by warring factions there.

## STUDENTS .. CELEBRATE .. MAY .. DAY

Old English Spring Festival Is Staged by Lincoln High School in Park

Miss Pauline Byrne Crowned Queen of the May by Miss Fay Adler. Flower girls and maids of honor are shown in royal array around the throne at the Lincoln High School's spring festival.

**BY TIMOTHY TURNER**  
"Ye may trace my step o'er the waking earth  
By the white that tell of the victor's birth  
By the primrose stars in the shadowy grass  
By the green leaves, opening as I pass."

The young men and young women of Lincoln High School celebrated May Day for all Los Angeles yesterday in Lincoln Park. May arrived in fact as well as spirit. The sun, beautiful for a fortnight, came out all its Southland boldness, and the grass of the park grew rapidly beneath dancing feet.

This school regularly has celebrated the old English spring festival with its heribonned poles, garlands of posies, fairies, sprites—more than the Christian and Anglo-Saxon to the core. Some 100 girls and boys took part, while 1000 or so of Lincoln Heights fathers and mothers, grandmothers and grandfathers, uncles and aunts looked on. The glee club orchestra and the Reserve Officers Training Corps band of the school played a program of folk music arranged by Louis Woodson Curtis, composer and musical director of the school.

Miss Mary B. Jacobs was assisted in the direction of the pageant by Mrs. Katherine Barrett and Miss Grace Worthen.

**QUEEN OF THE MAY**  
The Queen of the May was Miss Pauline Byrne, elected such by vote of the girls of the school, and she held her court at the far end of the enclosure. Adjoining her throne was a stand where Mrs. Leafie Sloan-Orcutt, fairy godmother of the school, and other guests sat.

The old English custom was kept throughout. There was no singing and so the spectators were supplied with sheets containing bits of old May Day verse from Chaucer to Keats.

**WORSHIPERS YE, THAT LOVERIS BE**  
For of your bliss the tale ends  
And sing with us, away, winter, away.

John Gower and even Robin Hood were given approval. The dancing was done very nicely. Miss Lucile Lester gave two solo dances. The warring maidens stepped high and two of the girls were crowned. The goodly Morris dance, all but forgotten, was danced again.

"Spring, the sweet spring, is the time  
When daisies and bluebells begin to grow,  
And the birds do sing, the pretty birds do sing,  
Cuckoo, jug-jug, pu-we, to-witta-woo!"

When England was merry such was the scene, grown men and women delighted in, but now only children fancy it.

## FUGITIVE EXONERATED IN SLAYING

Youth Who Killed His Brother-in-Law Is Now Hiding in Mountains

Francisco Sargosa, a young Mexican, is hiding somewhere in the Hollywood foothills, police believe, thinking himself a fugitive for the killing of his brother-in-law, Fernando Garcia, at Zelzah last Friday afternoon. But his name has been cleared of the murder charge.

A coroner's jury yesterday returned a verdict of justifiable homicide at an inquest at the Stropher & Dayton undertaking parlors, Hollywood, finding that young Sargosa shot in defense of his sister and another.

According to Capt. George K. Home, in command of Hollywood division, the inquest showed that Sargosa had threatened his wife and mother-in-law with a loaded revolver, and that he was just. Police fear that the youth may open fire on anyone who ferrets his hiding-place, not knowing that there is no charge against him.

**Three Balloons to Race Today at Ross Field**  
Three teams of Army balloons at Ross Field, Ariz., will compete today in a three balloon race, the event being an elimination contest to qualify a team for participation in the national balloon race at Milwaukee on the 11th inst.

Today's race will start at 9 a.m. According to weather conditions last night it appeared that the speedway would lead in the direction of the Mojave Desert. Judgment of weather conditions, enabling the contestants to take advantage of the air strata, which will drive their balloon fastest, is an important factor in such a contest. It is said.

The competing teams consist of Capt. L. S. Stone and Capt. H. D. Gray; Capt. R. E. O'Neill and Capt. E. W. Hill; Lieut. James T. Neely and Lieut. James R. Jordan.

The race will end at 6 p.m., at which time the contestants will descend and telegraph their respective locations to Ross Field.

**SOUTHERN PACIFIC ANNOUNCES LOW RATE**  
Reduced summer excursion rates of \$48.52 for the round trip from Ogden or Salt Lake City to Los Angeles by way of San Francisco, beginning the 15th inst., were announced yesterday by Charles S. Fox, vice president and general manager of the Southern Pacific Company. The new rates, the lowest since the war, are for optional routes between San Francisco and Los Angeles.

**Names Sisters as Affinities of Husband**  
Naming her two younger sisters as the affinities of her husband, Mrs. Mary D. Shepard, 1933 East Thirty-second street, yesterday filed suit for separate maintenance against John W. Shepard.

Mrs. Shepard in her complaint filed through Attorney Robert McCarty says that her husband was too familiar with her youngest sister, Rebecca Ledford, while they were residing in Detroit, and then paid attention to and took automobile rides to Long Beach and other places with another sister, Mildred Ledford. She also says that he attempted to seduce her with his niece, Pearl Sheppard, but that she repulsed him.

## BRITAIN REDUCES TAXES

Budget Introduced in Commons, Cuts Rates on Income Tax, Four Pence off the Pound; Change of Policy Toward Debts

(BY CABLE AND ASSOCIATED PRESS.)  
LONDON, May 1.—Sir Robert Stevenson Horns, Chancellor of the Exchequer, introduced in the House of Commons today the Budget for the fiscal year 1932-33, embodying estimates for £910,775,000 and £910,000,000 expenditures. The expenditures include £600,000 for contingencies.

Reductions in taxation, for which there has been strong agitation, came as expected. One shilling in the pound is taken off the income tax, four pence off the duty on tea, which reduces the duty from one shilling to eight pence on the pound, and a corresponding reduction of one-third off the duties on coffee, cocoa and chocolate.

**HOUSE GETS SURPRISE**  
The important surprise which the Chancellor gave the House before a large audience in the Academy of Music, speaking the shape of policy regarding the payment of debts.

After showing that the external debt now standing at nearly £1,000,000,000 had been reduced by £274,000,000 since March 1919, he gave it as his opinion that the turning point had come and the taxes should not be raised to redeem any debt this year.

The Chancellor explained that windfalls.

**PLEADS FOR WORKERS**  
Lady Astor Advores Application of Common Sense to Ailments of Capital and Labor  
(BY A. P. MORTIMER.)  
PHILADELPHIA, May 1.—The application of common humanity and Christianity to the ailments of capital and labor were prescribed by Lady Astor, M.P., in an address before a large audience in the Academy of Music. Speaking the auspices of the National Women's Trade Union League, she announced herself a strong advocate of trade unions—"institutions of peace."

She declared that it was the duty of women, now that they have the vote, to see that women who earn their own living work under the best possible conditions, "the kind of conditions under which mothers would like to see their daughters work."

**VISCOUNT TALKS BRIEFLY**  
Appearing on the same stage with Lady Astor was her husband, Viscount Astor, who made a brief talk and much along the same line. "There must be more Christianity in industry," Lady Astor said, "in denouncing the practices of socialism but upholding its theory as ideal. 'Socialism cannot force us on,' she declared, 'but Christianity can help us on.'"

In explaining that England encourages trade unionism and endeavors to make partners of capital and labor, she urged "continued consultation between capital and labor" as being far more desirable than "international lockouts and strikes."

**CHEERED BY AUDIENCE**  
"It is often the short-sighted firm, according to the speaker, who are declared, 'that dislocate and discredit the whole of an industry. Wild laborers become state-aided like leaders when you give them responsibility.'"

Lady Astor was cheered enthusiastically when she made a plea for a sympathetic attitude toward the

Lake of Over 1400 Square Miles Covers Farms and Towns; Shortage of Shelter and Food  
(BY A. P. MORTIMER.)  
NEW ORLEANS, May 1.—Relief organizations continued today among the thousands of homeless in the stricken food zones of Louisiana and Mississippi. Particular efforts were directed to the area in Central Louisiana, where a lake of more than 1400 square miles now stands on fertile farmlands and commercial towns as a result of the breaking of the levees of the Mississippi River near Ferriday.

**Terrible Eczema Healed in Idaho and California**  
In Boise, Idaho, 12 years ago, my mother, Mrs. Mary E. Moore, had terrible eczema. After six months of treatment, she was cured. I was told by her mother to use D. D. D. Three bottles she used and has never had a return of it since, though she keeps a bottle on hand for fear she finds it good for any little disorder of the skin.

NEW YORK STOCK EXCHANGE

(BY A. P. NIGHT WIRE)

NEW YORK, May 1.—Industrial and commercial papers published over the week-end recess, combined with the bullish literature issued by a majority of the commission houses, gave impetus to the further advance of the stock market prices today.

The movement was uneven for the most part, however, as the greater prominence of speculative issues. These mainly comprised leaders of the oil, motor, independent steel and copper groups.

Specific instances of unusual activity and strength included Associated and Pacific Oil, Standard Oil of New Jersey, Standard Oil of California, which threw off the disappointment shown at the failure of the directors to declare an extra dividend, Baldwin Locomotive, International Paper preferred, and Lackawanna, Gulf States and Republic steels.

There were numerous additional gains of one to two points among specialties, shipbuilding, chemicals and utilities, the latter embracing Montana Power, but rails, apart from the junior issues, were at all times backward. Sales amounted to 1,134,000 shares, making the twenty-second consecutive full session in which transactions ran into seven figures.

Rail tonnage for the preceding week showed a moderate decrease in that section as well as at more remote points, notably southwestern territory.

Dealings in foreign exchange contracted because of the holiday in London, but the firm to strong tone of leading remittances denoted a more cheerful view of conditions at Genoa. Readiness of anthracite issues caused hope of an early solution of problems arising from the coal strike.

Money rates continue to reflect heavy shifting of funds in connection with May payments. Call loans opened at 4 per cent, but advanced to 4 1/2 per cent at midday. Renewals of short time loans were effected at recent quotations, but the longer maturities were in little demand.

A 4 1/2 per cent sterling was at its highest quotation for over a week. French, Italian and Belgian bills rose three to six points, but Scandinavian rates again reacted. Far eastern bills were strong, the Shanghai rate rising in the face of more serious military disturbances in China.

New Issue

\$10,000,000

Union Oil Company of California

20-Year Non-Callable 6% Gold Bonds

Dated May 1, 1922

Due May 1, 1942

Interest payable February 1 and August 1 without deduction for any Federal Income Tax up to 2%. Denominations \$1000 and \$500, registrable as to principal. Principal and interest payable at the office of the trustee, Los Angeles, and by the Central Union Trust Company of New York, Authorized \$25,000,000. Present issue \$10,000,000. First coupon and last coupon for three months' interest.

Sinking Fund of \$500,000 per annum commencing August 1st, 1922, available in equal installments each six months, for the purchase of these bonds in the market if obtainable at or below a 5 1/2% interest basis to maturity. Any unexpended balance reverts to the Company.

LOS ANGELES TRUST & SAVINGS BANK, TRUSTEE, Los Angeles, Cal.

Application will be made to list these bonds on the New York Stock Exchange.

The following information is summarized from a letter from Mr. W. L. Stewart, President of the Union Oil Company of California:

PROPERTIES AND BUSINESS: The Company, organized under the laws of the State of California in 1890, is one of the oldest and most firmly established oil companies in the United States, combining in its activities producing, transporting, refining and marketing of petroleum and its products.

The Company owns in fee, or mineral rights in fee, approximately 600,000 acres and has under lease approximately 100,000 acres located in California, Wyoming, Texas, Colorado and Colombia, S. A. Of the 214,050 acres located in California, 90% is situated within approximately 50 miles of tidewater and about 90% of the Company's present production comes from this territory. The Company and controlled companies during 1921 produced in California from its own wells 10,217,835 barrels of oil. The Company's deliveries (including oil purchased) amounted to 25,382,801 barrels or about 23% of the marketable oil produced during 1921 in California.

The Company owns 745 miles of pipe line, having a daily maximum capacity of about 90,000 barrels, and has storage facilities for approximately 20,400,000 barrels. It also owns a fleet having a total carrying capacity of 800,000 barrels.

The Company owns and operates refineries having a daily capacity of about 60,000 barrels and markets substantially all products of petroleum through sales and service stations in the Pacific Coast States, the Hawaiian Islands, British Columbia, Chile and Panama.

ASSETS: The Consolidated Balance Sheet of the Company as of December 31, 1921, certified by Price, Waterhouse & Co. (without giving effect to this financing) shows total assets of \$104,615,637, after deducting reserves for depreciation and depletion of \$26,655,967. Current Assets amounted to \$34,299,132, as against Current Liabilities of only \$8,285,919.

EARNINGS: For the fiscal year ended December 31, 1921, the Company's net income after taxes, depreciation, depletion and interest was \$10,528,207, or in excess of the total amount of this issue. This amount remained after deducting \$8,630,798 for depreciation and depletion. For the past five years, net income after taxes, depreciation, depletion and interest has averaged \$9,374,153 annually, or nearly equal the total amount of these bonds. Interest requirements of this issue amount to only \$600,000 per annum.

SECURITY: These bonds will be the direct obligation of the Union Oil Company of California and together with \$8,662,000 closed prior liens will constitute its sole funded debt outstanding in the hands of the public, exclusive of purchase money obligations amounting to \$1,248,616. Through the operation of their respective sinking funds, all prior lien bonds will be retired by 1931.

All prior liens are to be closed and no present outstanding mortgages are to be extended. The Company will not create any new mortgages on any of its properties, or permit any of its subsidiary companies to mortgage any of their properties, without providing that these bonds shall share equally and ratably in the lien of such mortgage; but this shall not apply to purchase money mortgages, or loans in the usual course of business maturing in not more than one year and shall not restrict the acquisition of additional properties subject to lien or mortgage. The indenture will also provide that the total funded debt shall never exceed 50% of net tangible assets, as defined in the Trust Indenture, and current assets as defined therein must always at least equal all liabilities including funded debt.

EQUITY: The Company has outstanding \$50,000,000 par value common stock. At present quotations, this stock represents a market equity of over \$85,000,000. Dividends are being paid at the annual rate of \$12 per share. Cash and stock dividend distributions made during the past twenty-two years have amounted to \$37,642,222 while there has been added to surplus \$35,844,914.

We offer the above bonds for delivery when, as and if issued and received by us, subject to the approval of legal proceedings by counsel.

## MAY 2, 1922.—[PART I.] 19

[illegible]

—Consisting of 9 pieces—all solid walnut construction—the period effect is excellently achieved—and notice to what a low level the price has descended — \$335.00 complete—Bullock's Seventh Floor.

PEN POINTS

There is not much to be said for the credit of a son who refers to his father as the "old man."

A man who is poor has all the better of the patient with a bad account. He is cured quicker.

A big fossil has been discovered in Argentina. Might save the world a good deal of trouble.

A Seattle tumor slinger who has lost his voice committed suicide. They are not all that considerate.

It is possible that the American baseball club is in the wrong. There is the alibi of the club.

There are but few folk in Southern California who have not been children raising once in their time.

Germany has been informed that she must pay a portion of that million money on May 21. We presume the Allies mean 1922.

Glendale is to have a "Clean Week." Wonder what effect that will have on the gubernatorial candidacy of Matthew B. Jones?

Samson Mustard has just been appointed postmaster at Blaine. He was recommended by Senator Pepper. Mustard was the salt shaker.

And now it is reported that the famous "Star" boats will make their appearance in local waters, and yet another chapter in marine sports will be opened. The California Yacht Club of Los Angeles is building three of these boats, and will not only make a stir in the waters hereabouts, but will also participate in the first annual national championship series to be held September 18, 19 and 20 by the Star Class Yacht Racing Association. This event will be contested at Execution Light, at the extreme westerly end of Long Island Sound.

Through the activity of Frank Garbutt, the C. Y. C. is becoming a member of the national association, its territory covering Los Angeles Harbor and vicinity, and it will be an energetic competitor. The association's headquarters are at Port Washington, N. Y., and it has a number of fleets in the East, both east and lake.

**INEXPENSIVE CRAFT**  
The Star is a steel knockabout designed by William Gardner of New York, in 1911. It is twenty-two feet long (water line), five feet six inches beam, four feet six inches draft, and either gaff or Marconi-rigged. It carries no light sails, but is permitted to wing the jib with a whisker pole, when running off. The cost in New York is approximately \$500 without sails, which varies from \$75 to \$115. The cost here will be around \$700. It is an extremely safe craft, having bulkheads fore and aft, making both the fore and after sections airtight compartments. It is non-sinkable and non-combustible. As to speed, the Star has beaten every other one-design craft on Long Island Sound, and probably everywhere else. Though in existence only eleven years, its number has increased from twenty-four to 136, spread all over America, and a few in foreign countries. It has a great future and Southern California will be in on it.

The California Yacht Club has let the contract for its handsome clubhouse on the East Basin, Wilmington, to John Simpson & Co., and is guaranteed possession of the lower floor June 15, which will be quick work. Construction was started yesterday. The club's membership now is 375.

OUR-SET ENCOUNTER IS WON BY WESTERN DUET

Mr. Bundy Drubs Mary Browne in Lively Match; Tilden Hops on Vincent Richards

BY PAUL LOWRY

With pudgy Peck Griffin dominating the play, he and the famous member of that twice-crowned national champion team, Willie Johnston, defeated Bill Tilden and Vincent Richards, present champions, in a brilliant four-set encounter on the courts of the Los Angeles Tennis Club yesterday.

The scores were 2-6, 6-0, 11-9, 6-4.

At the largest gathering of tennis fans that ever watched an encounter on the courts of the Los Angeles Tennis Club yesterday, the scores were 2-6, 6-0, 11-9, 6-4.

And now it is reported that the famous "Star" boats will make their appearance in local waters, and yet another chapter in marine sports will be opened.

**DAVE SHADE WINS OVER DENNIS O'KEEFE**  
[BY A. P. NIGHT WIRE] KENOSHA (Wisc.) May 1.—"Dave" Shade of San Francisco defeated "Dennis" O'Keefe of Chicago, in a ten-round boxing match here tonight.

Shade floored O'Keefe in the tenth round and knocked him to the ropes repeatedly in the last three rounds. They are welterweights.

**DAVE SHADE WINS**  
[BY A. P. NIGHT WIRE] KENOSHA (Wisc.) May 1.—Dave Shade, San Francisco welterweight, outpointed Dennis O'Keefe of Chicago, in a ten-round bout tonight.

**STOCKTON WINS SHOOT**  
[BY A. P. NIGHT WIRE] STOCKTON (Calif.) May 1.—In rifle competition, at 200 yards, Commodore Stockton Camp of Spanish War Veterans, defeated the J. Holland Laidler camp of Sacramento, 204 to 292, here today.

**WELLS BEAT RECORD**  
Pilot of Curtiss "Wildcat" Speeds Plane at 208 Miles Per Hour in Test Near Mineola, New York

[EXCLUSIVE DISPATCH] NEW YORK, May 1.—A spring flying meet held as a benefit for the Veterans' Mountain Camp attracted a crowd of more than 20,000 yesterday to Curtiss Field, near Mineola, L. I.

Otto H. Kahn, Assistant Postmaster-General Paul Henderson, Maj. Gen. Mason H. Patrick, chief of the United States Air Service, and August Post, veteran balloonist, were among a group of spectators.

Before the meet Bert Acosta flew his Curtiss "Wildcat" at a speed of 208 miles an hour. The official world's speed record, established in France, is 203 miles an hour. As Acosta's feat was not officially recorded, it cannot be taken as a record. Acosta made an attempt during the meet to again equal this speed, but gave up, because of the crowd which surged over the field, despite the warning of the judges to keep back of the ropes.

The spectators seemed to take the greatest interest in the performance of the Mummert, described as the smallest plane in the world. This plane has a wingspan of 10 feet, a length of 12 feet, and a weight of 100 pounds, according to H. C. Mummert, the designer and builder.

Contrasting with the Mummert was a huge Handley-Page twin engine plane seating twelve passengers in its enclosed fuselage. This plane, which was maneuvered with seemingly remarkable ease, has a wing spread of ninety feet.

**MOORE COPS VERDICT**  
[BY A. P. NIGHT WIRE] MEMPHIS (Tenn.) May 1.—Pat Moore, Memphis banamweight, was awarded the referee's decision over "Kid" Pancho of San Antonio, Tex., in an eight-round bout tonight.

**WASEDA WINS**  
[BY CABLE AND ASSOCIATED PRESS] TOKIO, May 1.—The Waseda University baseball nine shut out the Indians University today, 6 to 0.

The race between Wickham and Nesbit will undoubtedly be the feature event of the meet and will mark the first time in several years the result of the 100-yard dash has not been conceded to one man before the start.

**PREP SPEEDSTERS TO MEET**  
[BY ASSOCIATED PRESS] STOCKTON, May 1.—Homer S. Toms, northern secretary of the C. I. F., has received the entries of both William Nesbit of Harvard Military Academy and Wickham of Bakerfield for the 100-yard dash in the State Intercollegiate track-and-field meet here next Saturday. Both of these lads have been consistently clocked in 10s. flat in actual competition. Three watches present State prep record of 10s. flat is jointly held by Sudden, formerly of Lick-Wilmerding High School, and Melvin, formerly of Berkeley High.

The race between Wickham and Nesbit will undoubtedly be the feature event of the meet and will mark the first time in several years the result of the 100-yard dash has not been conceded to one man before the start.

**FRANK MELLUS STEALS MARCH ON ANGLERS**  
Unable to wait till yesterday when the trout season opened throughout the State, Frank H. Mellus stole a march on his fellow men by taking a flying trip to the Rainbow Angling Club, and hooking out a stream limit of great looking brook trout.

Mellus declared that there were others just as anxious to get a limit before the other fellow did at the Rainbow Club.

**ADD MORE MONEY**  
[EXCLUSIVE DISPATCH] MONTARIO, May 1.—The spring meeting of the Ontario Jockey Club at Woodbine May 20 to 27 offers over \$100,000 in added money.

**GEORGES MAY RETURN HERE**  
[BY A. P. NIGHT WIRE] NEW YORK, May 1.—George Carpentier may come to the United States this summer to defend his world's light-heavyweight title against the winner of the Harry Gray-Gene Tunney American championship bout May 26, it was announced today.

In a cable message to Frank Plourney, Madison Square Garden matchmaker, the French champion declared he was eager to come here, and providing that he won his contest with Ted "Kid" Lewis, in London May 11, surely would do so.

**REGISTER MANY CARS**  
[EXCLUSIVE DISPATCH] NEW YORK, May 1.—Last year in New York there were 779,744 automobiles registered. The total registration fees amounted to \$10,238,858.

**FRENCH LIKE TENNIS**  
[BY CABLE—EXCLUSIVE DISPATCH] PARIS, May 1.—Lawn tennis is rapidly advancing as the national sport of France. The French national team defeated the United States team in the Davis Cup final May 26, it was announced today.

# CORINA

Aristocrat  
New Size

10¢

THE CORINA ARISTOCRAT is not a newcomer in the "all-Havana" field. It comes from a noble line of clear Havana cigars—the famous family of CORINA, "Queen of Havana Cigars," made in the great CORINA factories. Ten cents buys this choice all-Havana smoke. It is the first time in years that a dime has bought such mildness and quality.

## City League Title to be Settled This Week

### THREE TEAMS IN RUNNING

Hollywood Favored to Grab  
the Pennant

L. A. High and Manual Have  
a Chance at Bunting

Poly and Pioneers May Meet  
at Washington Park

\*\*\*\*\*

CITY LEAGUE STANDING

W. L. Pct.	
Hollywood	4 2 .487
L. A. High	3 3 .500
Manual Arts	3 3 .500
Polytechnic	3 3 .500
Lincoln	3 3 .500
Pasadena	3 3 .500
Jefferson	3 3 .500
Long Beach	0 5 .000

\*\*\*\*\*

The curtain will be rung down on the 1922 City League baseball season very soon, but until the final games are played, nothing but the holder of last place will be definitely decided. Long Beach seems to have the cellar championship clinched, the percentage column of the Jackrabbits being composed of three chubbies, but Hollywood, L. A. High and Manual all stand a chance of snatching the bunting that goes with the title.

Those ancient arch-enemies, L. A. High and Poly, are trying to clinch the title at Washington Park. For their ruckus, and if they are successful the game will be played Monday instead of Friday. Hollywood and Manual connect on the former on Friday, while Pasadena and Long Beach engage in their annual bridge battle on the Jackrabbits' diamond. Lincoln and Jefferson meet at Jefferson in a game that won't cost much loss.

If Hollywood succeeds in trimming the Toller, the Footbills will carry off the title, even though L. A. High defeats Poly. Hollywood and L. A. both claim the same percentage, but the fact that Hollywood dished out a royal walloping to the Romans recently settles all disputes as to which is the better team.

But in case Manual's set of sluggers underlines Coach Ward's claim, Hollywood will kiss good-bye to the 1922 championship. The Pioneers would win the pennant if this happened, providing they accomplish the apparently easy task of trouncing Poly. Manual's only method of grabbing the title is to trim Hollywood and root for victory for Poly against L. A. High.

#### RILEY'S PRACTICE

T-Bone Riley's bowling team will take on a couple of local teams this week in practice matches to be in good trim for their opening play in the Pacific Coast Bowling Congress now in session at the Anshus Alley.

Probably the best thing which has happened to the Angels is the fact that they are to be away from this place for a couple of weeks. They seem glad to get away, and this feeling appears to be shared somewhat by the fans. Everybody concerned feels that a change of environment may enable them to get started. As a rule, Los Angeles teams of past years have been better road than home performers. Killefer's men meet the Oaks in Oakland, starting Wednesday, and the Solons in Sacramento the following week.

Possibly the club really got started in that second game Sunday afternoon. They were an entirely different team after that series of rows with Umpire Mal Eason. Apparently they needed something to rile them. That snappy trouble with Eason was like the touch of an electric spark, bringing to life some nerve which had partially died. Eason was an opponent and sudden tri-vitalizing it. This may have been merely an angry flash, but there is a possibility that the effects may be lasting. Hope they stay mad.

There is no disguising the fact that the Angels played some remarkably poor ball last week. Nothing they attempted seemed to go right. Also they were to a considerable extent the victim of "breaks."

Seems strange that most of the bad hops on those ball grounds should be reserved for one team. But an implicit fate seems to have decreed that this should be so. As far as I can recall, only one ball bounded poorly for Sacramento in that rough, lumpy outfield all week.

Never did the Angels seem able to get heavy hitting and effective pitching on the same afternoon. They had some of each, but not in conjunction. Twice they were beaten by Sacramento after decisively outbidding the Solons. This was through inability to bunch their blows. Behind good hitting, such as Nick Dumortch showed in his first start last week, they looked a 50 per cent ball team.

Possibly the main ailment is located in the pitching staff. When they did get a good lead, as a rule they didn't have the pitchers to hold it. Give them good fingering and they will go possibly not as far as the pennant but a lot better. The pitching will improve—the youngsters with experience and the veterans with warm weather.

An apology to my young friend, Kelly Powers, son of John F. Powers, former owner of the Los Angeles club. I promised Kelly's dad that at the finish of my radio talk Saturday night I would ask Kelly how he liked this line of airy parlance. Then I forgot it under the terrible strain of talking 1000 miles into space and through seven different kinds of climate.

Kelly has one of those listening things and picks up a lot of stray talk. "I heard Boots Weber talking to Catalina," Kelly told his father the other day. "How did you know it was Boots talking?" asked Powers, Sr. "Why, I could tell his voice just as if he had been in the next room," said Kelly. Still thinking the boy might be mistaken, Powers asked Weber if he had talked to Catalina on that day and Boots admitted as much.

Just what went wrong with Mal Eason last Sunday afternoon probably is known alone to Mal and the infinite.

Eason is a wonderful fellow personally and usually an excellent umpire on the bases, although he seems to have his troubles judging balls and strikes. Also we will tell the world he is game. This gameless overrode his judgment Sunday afternoon when he waved aside police protection and vaulted boldly into the stands among the crowd. Of course, the fans had cooled by that time, but the act was one calculated to invite trouble.

Mal seemed to get away badly on balls and strikes against Demotich in the seventh inning. Nick is a quiet chap who seldom protests. On this occasion he was forced to kick in defense of his own ability. These protests seemed to arouse Eason's stubbornness, which apparently culminated in calling Schang safe at the plate the following inning. These things are merely impressions and may be incorrect.

McKee's two trips in from center field were not justified. This looked like courting trouble. Red Baldwin's case was different. Red blew up when standing in close proximity to the umpire. Here was a team going badly, fighting for its very baseball existence. Baldwin saw a badly needed game slipping away. Also he saw red. Baldwin rushed the umpire. Any other player, and probably any other citizen, standing that close to the umpire, would have done the same thing, or more. A player who could wholly restrain himself under these conditions would belong in the Egyptian Mummy League. It can't be done. This is not written in the hope of lessening any penalty which may be meted out to Baldwin. We are simply speaking of human nature, and human nature gets us into lots of jams.

An umpire has all the better of it in situations of this sort. It is one of the tenets of baseball that an umpire, right or wrong, must be supported in the interests of discipline. This is not without its injustice, but can hardly be helped. An umpire may be all wrong and escape without as much as a reprimand. A player to escape in the same manner must suffer in silence.

If Eason was right on this occasion, then one whole team and 3000 cash customers were wrong.

Vernon Tigers, greetings! Fresh from a successful sortie in the north, Ed R. Maier's classy machine will open here against San Francisco tomorrow afternoon. Esack seems to have worked an early-season miracle with the Tigers. The worst they have received this season is a drawn series with Portland. They defeated Salt Lake, Los Angeles and Seattle, taking a majority of their games both at home and abroad.

This latter achievement particularly was noteworthy, for Esack had by no means his full strength on the road. Dell, his best pitcher, was left behind to nurse an injury. A strained back forced Tony Faeth, another of his top-notch right-handers, to return home. Bodie, of course, still is under suspension. Any club which can sort forth and maintain a winning stride on the road under these conditions is putting the sensational, that which is almost unbelievable. Nobody in sight yet to lick that club when Dell, Faeth and Bodie get on the job.

Esack has remarkable success with his pitchers. Possibly that is because he was once one himself. Nearly every heavier joining Vernon shows distinct improvement. It was thus with Dell and Faeth. Jake May is the latest example.

Sacramento's greatest strength probably lies not behind the bat, in the pitcher's box, in the infield or in the outfield, but in two wonderful utility men. Reference is made to Bobby Schang and Les Sheehan. Schang, a good catcher, can play other positions even better. He is a hard hitter and fast. During the last series he was used behind the bat and in left and right field. Previously they had him at third.

Les Sheehan is the best utility man in the league. He also can play any position outside the battery points. McGaffigan may have trouble getting his job back at second base, although this is hardly likely, as Sheehan is needed in other roles. Two men such as Schang and Sheehan mean that a club can be kept close to top strength with two stars injured. And that means a winning club.

Incidentally, this young Henry Hampton pitcher is the best ever breaking into this league. In his first appearance he displayed the arm, control and headwork of a finished performer.

### CHAMP YEARN'S FOR CALIFORNIA

(BY CABLE AND ASSOCIATED PRESS.)  
BERLIN, May 1.—Jack Dempsey is getting tired of European capitals and wants to get back to California. He intimated tonight that he probably would cut short his Berlin stay and return home by way of Paris, as he will not be permitted to take into England the German police dog he purchased here.

Dempsey said he was having a good time, but that the pace set for him by ambitious friends was wearing him out. Tonight Dempsey and his retinue visited a vaudeville house, where they watched a half-dozen women boxers in three-round bouts. Through an interpreter Dempsey coached a middleweight blonde, enabling her to deliver the winning punch against her heavier brunette opponent.

### TILDEN'S FIND IS ANALYZED

Champion Declares Wiener  
is a Real Genius

Lad Has Natural Ability to  
be a Star

Title Holder Schooling Him  
in Tournament Play

BY WILLIAM T. TILDEN II.  
Tennis Champion of the World,  
1920, 1921

There has been so much talk, speculation, misquotation and publicity on my new tennis find, A. L. (Sandy) Wiener, that I have decided to place my views on the boy before the tennis public.

Young Sandy is just 14, about five feet three inches tall and weighs under 100 pounds. He is a natural athlete and has played football, baseball, track and tennis since he was old enough to run.

Sandy's early tennis training was gained at Madison, Ct., where his family have their summer home. Here he worked for three seasons under the able guidance of William Hinchcliffe, the coach of the Yale tennis team. Hinchcliffe gave the boy a good service and forehand, but hardly realized the full possibilities of footwork, backhand and volleying.

It was Sandy's natural form on the court that first impressed me, while his unfailing good nature and poise showed a wonderful tournament temperament. As soon as I commenced to work with him I found a rapid fulfillment of his natural promise.

Let me make very plain several things. While I consider Sandy Wiener the most promising boy of his age I have ever seen, I do not mean he is at present the best tennis player. He is not. As a stylist, developing a marvelous service game, that Sandy deserves consideration. He has never had the tournament experience that made Vincent Richards, Carl Fischer or Frank Anderson so good at the same age. All these boys at 14 would have beaten Wiener today, but none of them have the promise of future greatness, even Richards, that Sandy shows.

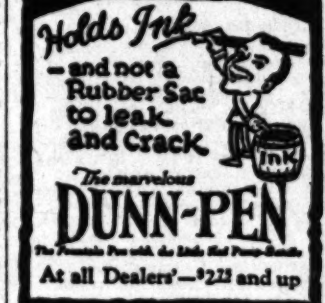

Sandy has one fault which may prove his undoing. It is extreme shyness and lack of confidence. If he overcomes this by gaining tournament experience and many defeats, he should equal, if not surpass, his greatest players. This lack of confidence remains with him, he will never attain the championship heights. It is with the idea of giving him tournament experience against the best players that I am playing doubles with him. We have no idea of victory, but he and I are regarding these tournaments as a schooling for future years, when we may look to real victories.

### AMPHITHEATER TO BE SCENE OF BOXFEST

The fine big amphitheater of the Southern California Horse Show Association, with its boxes, loges and tiers of comfortable seats, is to be the scene of a prize-fight carnival, May 25, in which a number of selected bouts of various weights will participate. The event is being promoted by Tom McCarty, the well-known local sporting man, and he promises a lively series of contests. Some real purses will be hung up to keep the proceeds of the fight carnival will be devoted to the various charities sponsored by the Los Angeles Assistance League. It is expected that the event will draw a large number of spectators who are interested in both the promotion of boxing, and in aiding the worthy charities under the direction of the Assistance League.

The tremendous sales record of Grayco soft collars in this city attests their popularity. Los Angeles is said to have a larger percentage of well-dressed men than any other city in the United States—and most of them wear Grayco Soft Collars.

What are the requisites of a one hundred per cent soft collar? A smart, dressy, immaculate appearance—an intensely white fabric of almost silken smoothness—a collar that looks clean and stays clean all day.

No other collar fabric but Grayco pique (P-K) or Grayco silk will give the above results.

Soft collars made from coarse fabrics may come and go—but pique (P-K)—the fabric of refinement—will remain forever.

See Grayco soft collar and cravat displays in all dealers' windows this week.

## Bowling Congress in Full Sway

### CAFE QUINTET TOPS BOWLERS

Manhattan's Lead Department Store Five

Venicians Roll Up Huge Score in Tourney

Fair Tenpin Artists Start Play Today

The seventh annual bowling tournament of the Pacific Coast Bowling Congress, which is being held at the Angelus Academy, went into the third day yesterday and is now going full blast. The feature of last night's entertainment was the bowling of the Manhattan CAFE five, who bowled its way into first place with a total of 2411 pins to its credit, over 100 points ahead of the next highest quintet, the Broadway Department Store Club.

"Sharpshooters" Eddie Appell, of the Manhattan CAFE, gave the paid customers a treat by knocking down a total of 445 pins for an average of 211, which is the best performance of the present tourney. The others on the Manhattan CAFE team were Linder, Lucas, Poupatis and Mackay. The L. A. Barber Supply Company five rolled up the next highest score, knocking down 2419 pins.

**SHOWS SPEED**

Andy Mullen, anchor man of the Mullen and Bluetts, showed the boys a fast ball in last night's encounter. Every time he rolled the ball the pin boys retreated to a high safe spot. Martin Kern, an oldtimer, led the Santa Monica team in person. Kern won the A.B.C. individual in 1920.

Moria fans were much in evidence and they cheered their favorite team, which bowled under the colors of Gore Brothers, Inc.

Dan Tobey, the well-known announcer, bowled for the Mullen & Bluetts five, but had trouble in making his ball behave. He finally made a strike in the tenth frame of the first game.

**VENETIANS BOWL HIGH**

Yesterday afternoon the Venetians No. 2 bowled and rolled up a score of 2437. On Sunday night six sailor teams bowled. The U.S.S. Venetia quintet made the high total, laying down 2445 pins.

This afternoon and Thursday, the women's singles and doubles will be held. Commencing this afternoon, singles and doubles matches for men will be held, while the five-man teams will do their stuff in the evenings.

The scores follow:

Team	Score
Manhattan CAFE	2411
Broadway Department Store	2419
Manhattan CAFE	2411
Broadway Department Store	2419
Manhattan CAFE	2411
Broadway Department Store	2419

### CUB SWIMSTERS DEFEAT TIGERS

Swimmers from the Southern Branch of the University of California defeated the Occidental College aquatic performers last night at Bimini baths by a score of 13 to 27. The Cubs captured nearly all of the first places and placed in every event. Dunakin, of the victorious team, won three events.

### THREE-BAGGER SETTLES GAME

Pirates Grab Torrid Tilt from Cincy, 7 to 6

Brooklyn Rookie Shuts Out Phillies, 2 to 0

Giants Continue Their Heavy Hitting Streak

**ST. LOUIS, May 1.**—The Browns moved into first place in the American League pennant race today, winning their fourth straight game from Cleveland, 13 to 2, while New York was being defeated by Boston. The Browns won by pounding three pitchers for sixteen safeties, including three doubles, two triples and a home run by McManus. Kolp pitched a strong game. The score:

Team	Score
Browns	13
Cleveland	2

**CUBA grows no better tobacco than the full Havana filler you find in Robt. Burns.**

And neither was Havana tobacco ever mellowed and cured into a more pleasing mildness of flavor.

Robt. Burns is a distinctive cigar—distinctive in taste, distinctive in shape and distinctive in the big cigar value that huge production makes it possible to offer at a moderate price.

Have you tried one lately?

**Robt. Burns Cigar is Full Havana Filled**

### CHAMPIONS ARE DEFEATED

(Continued from First Page.)

time rival, Mary Browne, in a hot three-set match, 4-3, 3-4, 4-4. Both of the former national champions for women played whirlwind tennis and gave the gallery plenty of opportunity to applaud their admirable shots.

It was nip and tuck all the way in the first set with Mrs. Bundy putting on steam when the score stood at four games apiece, and running out the two that gave her victory. Miss Browne led at 4-3, but a stout rally by Mrs. Bundy on her own service game brought her onto even terms after sixteen points had been played.

**RESERVES STRENGTH**

The second set was Miss Browne's all the way. Apparently Mrs. Bundy decided that it would be the wise thing for her to save her strength for a third set, and after Miss Browne had rolled up an advantage of two-love, Mrs. Bundy plainly relaxed her play.

But she came back strongly in the third set, and the added sting to her shots and her superior placing resulted in Miss Browne's downfall. Miss Browne's driving ball was splendid, but she couldn't hit the sidelines with the same consistency as Mrs. Bundy.

The opening match of the day was a comparatively easy triumph for big Bill Tilden, the human climbing bean. Richards drove and smashed with reckless abandon, and while he counted on some wonderful acrobatics Tilden never looked at the ball when such a needed carried him through on top.

**HERD WINS TITLE**

The final match of the day was a postponed encounter between Cliff Herg and Tom Ferrandini for the Old Valley singles championship. The two battled well into the gleaming because Herg had to catch a train for Chicago and there was no other chance to play off the combat. Herg won in two sets, 6-3, 7-5.

Tilden and Richards leave on the Lark for San Francisco tomorrow night to play in the East-west matches.

### VENETIANS BOWL HIGH

Yesterday afternoon the Venetians No. 2 bowled and rolled up a score of 2437. On Sunday night six sailor teams bowled. The U.S.S. Venetia quintet made the high total, laying down 2445 pins.

This afternoon and Thursday, the women's singles and doubles will be held. Commencing this afternoon, singles and doubles matches for men will be held, while the five-man teams will do their stuff in the evenings.

The scores follow:

Team	Score
Manhattan CAFE	2411
Broadway Department Store	2419
Manhattan CAFE	2411
Broadway Department Store	2419
Manhattan CAFE	2411
Broadway Department Store	2419

### ODD GAME

**BROOKLYN, May 1.**—Harry Shriver, rookie pitcher from Saginaw, Mich., blanked the Phillies today, 2 to 0, in his first start for Brooklyn. Shriver fanned nine. Post, Dodger first sacker, had only one out, a strike, in the first while the home team registered only four assists. Score:

Team	Score
Brooklyn	2
Phillies	0

### NATIONALS LOSE

**PHILADELPHIA, May 1.**—Home runs by Walker and Dykes aided Harris today in subduing Washington by a score of 1 to 6. Harris allowed but eight scattered hits and in addition contributed two safeties. The score:

Team	Score
Nationals	1
Phillies	6

### TRAVIS DAVIS WILL MEET SOULES FRIDAY

Travis Davis, welterweight champion of the coast, is matched up with Bud Soules for the main event of the American Legion boxing show at Hollywood next Friday night. Johnny Lotsey, the clever 118-pounder of Sacramento, has returned from the north and has been assigned by Matchmaker Frank Crowley to the semi-wind-up with Eddie Macay.

Other bouts on the card for Friday night follow:

Boxer	Weight	Result
Macay	125	W
Lotsey	118	W
Soules	125	W
Davis	125	W

### MERCURY MAT CIRCLES ASTIR OVER GILMAN

A war—revolutionary in aspect—has been started in local wrestling circles.

In the latest report from the front it would seem that Art Gilman, star middleweight grappler of the Los Angeles Athletic Club, has started something which his brave instructor, Walter Miller, will carry into the ring with him on Thursday evening, when he clashes with Kinjo Ikeda, the demon Japanese wrestler.

Gilman, seeking a new field of wrestling knowledge and wishing to test some of the tricks employed by a Japanese grappler, has been working out with Ikeda. This has gone against the grain with Miller and he means to take arms against such a revolutionary movement.

Heretofore, the pupils of the Athletic Club wrestling mentor, have always helped him train for his matches. Gilman, being a middleweight and one of the ranking wrestlers wearing the club colors, has forsaken the Miller camp. However, it must be stated that Gilman's action was but an innocent and ambitious move to increase his fund of wrestling knowledge.

**LATON WINS MATCH**

**SEBASTIA (Mo.) May 1.**—Johnny Layton of Sebastia, world's three-cushion billiards champion, won the first block of his match with Charles McCourt of Pittsburg, challenger, here tonight, 80 to 44 in eighty-two innings.

### GRADE SCHOOL CINDER TITLE TO BE AT STAKE

Pasadena High School will be the scene of one of the biggest cinderpath affairs ever staged in the Crown City when the finals in the annual grammar school track and field meet take place on the 9th inst.

More than 300 youthful athletes are scheduled to enter the meet and competition will be keen, according to those in charge of the races.

**MANY STEEDS ELIGIBLE**

**NEW YORK, May 1.**—There are 123 horses eligible to start in the \$50,000 Freehack at a mile and an eighth, to be run at Pimlico, Md., on May 13.

**NAMES IN NAMES**

Miss Margaret Brute is the star of an Ohio college basketball team.

## WOMEN GATHER HERE FOR MEET

Four-Day Convention to Begin Tomorrow

Better Citizenship Will be Given Emphasis

Speakers of Prominence on Banquet Program

BY MYRA NTE

"Up and down the middle of the world," from Siskiyou to San Diego and Imperial, across the Golden State from Mono and Sonoma, feminine eyes are on Los Angeles today, where club women are gathering for the twenty-first annual convention of the California Federation of Women's Clubs. From the Friday Morning Club of Big Pine, numbering fifteen members, to the Friday Morning Club of Los Angeles, with its 2400 members, delegates are gathering for this four-day meet, to discuss "Woman's Citizenship at Work and at Play."

Mrs. William A. Fitzgerald, State president, heads the delegation from San Francisco, and is registered at Hotel Rosslyn, the convention headquarters, where already 190 club women have registered. This is only a small percentage of the numbers who will attend the more important sessions at Board Hall, on the campus of the University of Southern California, which seats over 2000 people.

Mrs. George Salm, president of the South Side Elbel Club, together with her entire club of 210 members, is the courtesy committee, which is busy meeting trains and extending to the guests the welcome of Los Angeles. Thirty-five women from this club will wear the courtesy badge, and the number and size of the patterns desired to this address.

At BANQUET

Tonight the Southern California Women's Press Club, of which Mrs. Georgina Townsend is president, will host a banquet which will be given in honor of the State officers at the Los Angeles City Club. With Mrs. Townsend presiding there will appear among the speakers Mrs. Gene Stratton Porter, Cleveland Moffett, John S. McGrover, Frederick Warder, and Richard Walton Tully. Music composed by members of the club will be featured. Mrs. Lorraine Strong Hays will sing songs composed by Helen Lukens Gault.

Tomorrow afternoon the first social function of the convention proper promises to be the most distinctive of all for this time. Mrs. Russell J. Waters, a former State and Los Angeles district president, will entertain at her home, on West Adams street, from 4 until 6, with an old-time Californian party. Her guests will be the two Friday Morning Club boards, the present one and the one which served when she was president; the State board, when she was president in 1917, together with speakers and guests from the old Spanish families of Los Angeles, who are interested in club work. Prominent among these will be Mrs. Florence Dodson Schenckman and her mother, who will wear the wonderful jewels and the gowns of the days of the Donas. These women of Spanish descent will embroider and make lace on cushions as they are used to do two generations ago. There will be a Mexican orchestra in costume, and the Mexican supper will be served by a caterer recently from Mexico City.

Among the exhibits not announced hitherto will be one of California books by California authors, in charge of Miss Mary Workman. Some of them which are very rare were written by Los Angeles men and women, Mr. Russell J. Waters being among the authors. Miss Gertrude Darlow of the Public Library will be in attendance, and each day will give informal talks concerning the books. The club which will be in charge of this exhibit are: The University Book Club, Miss Frances Everett president; Women's Auxiliary to the Postoffice Clerks, Mrs. George Clifford president, and Boye Heights Women's Club, Mrs. H. A. McClain, president.

Mrs. John Stearns Thayer, chairman of the credentials, announces that her committee will be at Board Hall as early as 8:30 a. m. tomorrow to receive and examine the credentials of the delegates.

TO OPEN CONVENTION

Mrs. Fitzgerald will open the convention at 10 a. m., and Mrs. Thayer will be ready to report by 11 o'clock. Others who will give reports tomorrow morning are Mrs. Fitzgerald, Mrs. Annie Little Barry, parliamentarian; Mrs. J. C. Ughart, program; Mrs. Sidney Thomas Esley, chairman of the local board; Dr. Mariana Bertola, vice-president; Mrs. Charles A. Wiley, Mrs. Stanley V. Wilson and Mrs. Clarence M. Haring.

Dr. Rufus B. Von Kleinsmidt, last week inaugurated as president of the University of Southern California, will deliver the address of the morning, "American Citizenship." He will also extend a welcome from the university, which in a sense, one of the hosts for the convention.

Mrs. Robert J. Burdette is the chief speaker for the afternoon, with the subject, "The Women's Light and Power Company." Mrs. L. B. Hogue of Santa Paula, president of the Emeritus Club, which includes in its membership some of the most prominent club women from all over the State, will preside at the banquet of this club Thursday evening, at the Friday Morning Clubhouse, and Mrs. George W. Turner, president of the San Joaquin Valley District Federation, will speak tomorrow morning.

Woman's City Club

A decidedly healthy condition exists in the Woman's City Club, it is "healthy condition," and the club women are very much interested in election.

Yesterday the primaries closed

(Continued on Tech Page)

## Fashion Forecast

GIRLS' DRESS.

Your little girl would look attractive in this style made in jersey, striped serge or gingham. It is a sleeveless one-piece dress with closing on the left side which gives it a coat effect.

The girls' dress pattern No. 1320 comes in sizes 6, 8, 10, 12 and 14 years. Size 8 requires 2 1/2 yards 36-inch material for dress and 1 1/2 yards 36-inch material for guimpe. Price 10 cents in stamps or coin (coin preferred).

1320

The SPRING issue of our FASHION MAGAZINE is now ready. It contains over 300 styles, several pages of embroidery designs, some styles used by Movie Stars, and a complete seven lesson course in dressmaking. This book should be in every home. The supply is limited. To order your copy now. Price 10c.

No patterns are kept in the Los Angeles office of The Times. To get patterns send the price, in stamps or well-wrapped coin, and the number and size of the patterns desired to this address.

FASHION DEPARTMENT, Los Angeles Times, 230 S. WELLS ST., CHICAGO, ILL.

All orders will be handled by this branch office direct to the Chicago office, unless otherwise specified. All patterns are 15 cents each.

Keeping the Peace

Don't you think the men around here put in much of their time in "keeping the peace?" said the new arrival at Crimmon Gulch.

"No," replied Sactus Joe. "The sheriff says poker must be encouraged. As long as everybody's getting drunk, why not let 'em play? It can keep his eyes on the game and his hands off the women."

At Large Reception

Saturday afternoon, May 13, is the date set by Mrs. Hancock Banning for the reception she is to give for her guests.

Natural, Delectable Food  
the World Over

From Egypt and the Nile to the  
Bering Sea, from Siberia to  
China to the Scandinavian coun-  
tries, in the Western as well as  
the Eastern Hemisphere, fish is  
one of the chief foods of mankind.

In many countries, in Finland,  
Japan, among the peoples of the  
rozen north, little else in food  
is eaten; and to every national-  
ity time immemorial it has been  
an important diet.

Fish is a healthful, natural  
food. Religions have decreed  
it as the food for the fast, and  
it is prescribed for the sick. It is  
easily digested and as a body build-  
ing food is unequalled.

Try eating fish more often.  
Select some of the lesser known  
varieties and ascertain from your  
dealer how they are best pre-  
pared for cooking. There are  
hundreds of more different ways  
in which they can be prepared and served.

State Fish Exchange

Fish Is Caught From  
Every Day.

TAKE NOTHING

When asked what a per-  
son should take for such and  
such a ailment, the doctor usually  
says, "Take nothing." This is  
not a recommendation to be  
disregarded. It means that the  
body should be allowed to fight  
the disease on its own resources.  
The doctor's advice is to let  
nature take its course.

SPRING FISH

Spring fish is the best time to  
eat fish. The fish are fresh  
and the weather is just what  
you need for a change.

## We stake our reputation on OAK GLEN BUTTER

SPECIAL THIS MONTH

COST PLUS ONE CENT

85 STORES

"there's one in your neighborhood"

"Spreading Everywhere"

OAK GLEN BUTTER

for 365 days in the year, the cream that makes  
our butter is delivered daily—in its PURE, SWEET  
state—and churned in one of the largest, most mod-  
ern creameries in California. (In fact, this cream-  
ery churns more butter day in and day out than any  
other California Creamery.)

—this butter is then cut and wrapped in a dust-proof  
room under refrigeration—shipped direct to us in  
refrigerator cars, and delivered to our "85" STORES  
in auto trucks whose function is to carry only OAK  
GLEN BUTTER.

—this SUPERIOR BUTTER REPRESENTS THE  
UTMOST IN QUALITY—and comes to you in ex-  
actly the same condition as when it leaves the  
creamery.

SWEET AND FRESH

—again we impress you with the fact that  
THERE IS NO BETTER BUTTER

We Cannot Offer You a Stronger  
Guarantee Than to Stake Our Re-  
putation on "Oak Glen Butter."

ARTIST .. RECOUNTS .. RADIO .. THRILLS INFANT LIVES  
STORY OF LOVE

Soprano of Chicago Opera Tells Host of Ether Messages

(Continued from First Page.)

for a male dog. With birds it is  
different. All female birds have  
male mates, but they are all kept  
in cages. That's the only way they  
can be kept at home.

Having decided, a year ago, that  
some day she would adopt a little  
bird, Mrs. Van Rensselaer began  
providing against the day when her  
spacious apartment at the  
Royal Court Apartments, 214 West  
Sixth street, would assume the at-  
mosphere of a real home.

Of air she thought and when she  
returned it was with many boxes  
and bundles of strange shape.  
Day after day delivery men brought  
other packages to her, and soon the  
apartment took on the appearance  
of a great nursery.

To list the scores of "baby things"  
that now grace Mrs. Van Rensselaer's  
home would be to print the  
catalog of a "Lilliputian Bazaar."  
The accompanying picture, taken  
yesterday, will give some idea of  
what it means to be a potential  
mother.

Having heard through friends of  
"Dr. Sloan's" baby," Mrs. Van  
Rensselaer at once got in touch  
with the doctor, making formal  
application for the legal adoption  
of "Bonnie Marie." She and Dr.  
Sloan were not unknown to each  
other. They were, however, mu-  
tual, not personal friends.

She went to see the little one at  
the hospital and fell in love with  
her at first sight. Several times  
each day she was made welcome  
there and the nurses soon believed  
that here was the prayer of the  
future destinies of the baby they  
all had learned to love.

But there were obstacles. Others  
had learned of the chance to have  
a baby of their own, and many  
applied for her.

A 20-year-old widow of a wealthy  
Seattle shipbuilder went to see Dr.  
Sloan and begged for a chance  
to gain solace from her bereave-  
ment in the adoption of the child.  
She was "too young," Dr. Sloan  
thought and ruled.

A Los Angeles laboring man and  
his wife, who longed for the pat-  
ter of a child's footsteps in their  
home, beseeched the doctor for his  
benediction, but they resented the  
idea of Dr. Sloan's contributing  
funds for the education of "Bon-  
nie Marie"—they thought she  
would develop attributes above  
their lowly station—and they de-  
clined.

Then came our spinster lady,  
pining for something to hold in  
her arms and cherish something  
which in later years could talk to  
love—the love of a child for its  
mother. This she had missed and  
longed for, so she called on the  
doctor, filled with great hope and  
glorious dreams.

But here again a hitch was en-  
countered.

"The minds of little children,"  
the doctor told her, "are mar-  
velous." (Continued on Page Ten)

## DONATE SITE FOR MUSEUM

Paradise Citizens Subscribe to Purchase Fund

Leading Woman's Club Elects New Officers

Voters Register for Coming Bond Election

LOCAL CORRESPONDENT.  
PARADISE, May 1.—With only a few thousands more to be pledged, to complete the fund, it was practically assured tonight that the option prominent citizens have taken on the Carmelita gardens at Colorado street and Orange Grove avenue would be exercised tomorrow and the plan of donating this land to the city as the site of a future municipal museum would be carried out.

The money has been raised by donation of \$1000 each or more by public-spirited citizens who desired the corner to be preserved for public use, following failure of a recent bond issue proposal.

**HEADS CIVIC LEAGUE**  
Mrs. Maynard Force Thayer was unanimously elected president of the Women's Civic League, largest organization of women in Paradise, at the annual meeting today at the Maryland.

Other officers the coming year will be: Mrs. Frank S. Wallace, first vice-president; Mrs. M. Grant Edmonds, second vice-president; Mrs. George H. Martin, secretary; Mrs. Charles E. Ashcroft, Mrs. H. H. Beckwith, directors; Mrs. F. M. Hebl, auditor; Mrs. John H. Pearson, chairman of program committee.

**FOR SCHOOL ELECTION**  
Registration of voters is being held this week for the special school bond election scheduled for June 6, when the school district

## SAYS JAPAN IS FRIENDLY

Returned Missionary Insists Land of the Rising Sun Does Not Want War With This Country

(EXCLUSIVE DISPATCH.)

ONTARIO, May 1.—That Japan is the best friend of the United States has been declared by the people of the Flower Kingdom neither plan nor desire war with America was the declaration here today of W. A. Eckle, a returned missionary from Japan.

"Japan does not want war and any agitation to the effect that it does is mere tommy rot," declared Mr. Eckle. "The only stories you ever see printed in Japan about war with the United States were originally written by unscrupulous journalists in this country and copied by Japanese newspapers."

"Japan is not a militaristic country," he continued. "The men of Japan are forced to train for military service against their will and a bloody revolution is sure to result if the government does not abandon that policy."

for its purchase by the municipality. The total price of the thirteen acres comprising the gardens is \$210,000, all of which has been subscribed by citizens in the last few days.

will vote upon bond issues aggregating \$1,150,000 for new school houses and the enlargement of present plants to relieve congestion.

**STADIUM ON RADIO**  
Opening the radio broadcasting station at the Pasadena Chamber of Commerce was signaled tonight, when messages about Pasadena's new stadium and the campaign for the sale of scrip books, redeemable in future rose tournament football tickets, were broadcast throughout the Southland.

Leslie B. Henry of the campaign committee was allotted time to tell about the stadium campaign. Beautiful flowers grown by students of the school were on display.

**SCHOOL FLOWER SHOW**  
Gents of Pasadena High School were on exhibition at the school today, the occasion being the school's annual flower show. It was held in the school library.

## HEART TROUBLE KILLS DOCTOR

Long Beach Physician Falls Dead on Street

(EXCLUSIVE DISPATCH.)

CITY MANAGER SUGGESTS NEW MUNICIPAL DEPARTMENT

New Postmaster Takes Over Important Office

LONG BEACH, May 1.—Victim of an attack of heart failure, Dr. J. Nelson Barnes, 45 years old, a physician with office in the Markworth building, died at his home at 331 Pacific avenue.

Dr. Barnes had been in the city for four years ago from St. Louis, Mo., where he enjoyed an extensive practice. With his wife he resided at the Arlington Hotel, Pacific and Ocean avenues, this city.

The doctor was in unusually good health when he left the hotel for his office this morning, his wife says. Mrs. Barnes was attending a club luncheon at the hotel when her husband's unexpected death.

Dr. Barnes was a member of the Pasadena Chamber of Commerce, a past patron of Long Beach Court No. 36, Order of the Amaranth, and a past patron of the Eastern Star and held the post of Foreman in Long Beach Lodge No. 4, Ancient Order of United Workmen. Funeral services will be held Wednesday morning.

Recommendation will be made to the Council tomorrow by City Manager Hewes for the creation of a housing department as a branch of the city health office, and for the appointment of a veterinarian whose duty it will be to inspect and test dairy herds serving Long Beach and to inspect slaughterhouses and meat products sold here.

The State Housing Act provides that cities must grant permits for rooming and boarding houses, hotels and apartment-houses, and this must be done after regular inspection every six months. Long Beach's failure to do this was called to the attention of Hewes by Chief Inspector Leo Mott of the State Immigration and Inspection Commission after a partial survey of the city by Mr. Mott had revealed nearly eighty violations of the law in these particulars.

C. H. Windham, former Mayor, today became postmaster of Long Beach, succeeding Walter J. Desmond, who had held the position since Nov. 23, 1913, when he was appointed by President Wilson.

During the regime of the retiring postmaster, Long Beach has grown from a town into a city and postal receipts have increased from \$76,304 to \$279,242.

There will be no change in the personnel or in the administrative policy under Postmaster Windham.

"It is my hope," said Mr. Windham this morning, "that the postal department here will be as successful under my direction as it has been under that of Mr. Desmond. I am fortunate in being able to come into an office so well organized and with employees so well versed in their work as they are in this office."

"There will be no material change in office personnel as far as I know now and I will attempt to follow closely the well-organized work that my predecessor has outlined."

Mr. Desmond will practice law as a partner in the firm of Desmond & Langelier with offices in the Markworth Building. Flowing at what officials of the company estimated as 2000 barrels a day the Ellis No. 2 of the Henderson Petroleum Company came in shortly after noon today. Production developed just four days after the well was spudded in.

INDIANAPOLIS MAN DIES AT SANTA ANA

(EXCLUSIVE DISPATCH.)  
SANTA ANA, May 1.—Benjamin B. Minor, 31 years old, died suddenly early yesterday at his home, 131 West Nineteenth street. Mr. Minor was a prominent grain dealer of Indianapolis for many years and came to Santa Ana only seven months ago with his youngest daughter, Miss Gertrude Minor, to spend his remaining days in Southern California and to be near his other children. Mrs. Minor is survived by two daughters, Mrs. George L. Chapman, Santa Ana, Miss Gertrude Minor, and three sons, Benjamin, Jr., of San Francisco, S. E. Minor of Chicago, and Eugene B. Minor of Costa Mesa.

Funeral services will be held from the Mills & Winkler funeral chapel Wednesday, at 2 p.m. Rev. Otto F. Rummel, pastor of the First Baptist Church, officiating. Burial will be in Indianapolis.

VENTURA TEACHER ASKS BIG DAMAGE

(EXCLUSIVE DISPATCH.)  
VENTURA, May 1.—Charging that she suffered a fracture of the pelvis bone, injuries to her legs and hips and other hurts as a result of an accident of which A. H. Koehler, of the Toledo Sales Company, was said to be the cause, Miss May Kincaid has brought suit for \$25,375. Miss Kincaid is a teacher.

The accident occurred three miles west of Ventura. She charged that Koehler was driving at a speed in excess of thirty-five miles an hour.

## Officers Defer Investigation of Auto Smash

Well-Known Writer Long in Library Work

(EXCLUSIVE DISPATCH.)

SANTA ANA, May 1.—With the death of Miss Leonora Rouchelgau, aged 19 years, of Arlington, as the result of injuries received when the car in which she was riding with H. W. O'Hara, also of Arlington, and Miss Elsie Deliga of Santa Ana, plunged over a 200-foot embankment in Santa Ana Canyon about midnight Friday, Orange county authorities were undecided today whether an investigation into the accident would be launched.

The situation was complicated by the removal of the body of Miss Rouchelgau following her death Saturday night to Riverside without the permission of Coroner C. D. Brown of Orange county, who was planning to confer with the Riverside county coroner as to a course of action to be followed.

Miss Deliga is in the Orange County Hospital and is said to be on the road to recovery although suffering from serious internal injuries. O'Hara has been removed to the home of an uncle in Austin and is in a critical condition with his back broken.

## DEATH CALLS POPULAR POET

San Diego Boy Wins Prize in Essay Contest

(EXCLUSIVE DISPATCH.)

SAN DIEGO, May 1.—John Vance Cheney, well-known California poet, died at his home here this afternoon after a long illness. He is survived by his widow.

Cheney was born in Goodland, N. T., in 1848, and for a number of years practiced law in New York City. Later he became librarian of the Free Public Library of San Francisco, and then the Newberry Library in Chicago. He was the author of a dozen or more books of poetry, among them being "Thistle Drift," "At the Silver Gate," "Wood Brooms" and "Out of the Silence."

**WINS LITERARY PRIZE**  
Stanley Urvile Newcomb, 13 years old, of the Lincoln school, San Diego, has been awarded first prize by the National Automobile Chamber of Commerce for the best essay by a California grammar school pupil on "How I can make the highways more safe."

The boy's essay will represent the State of California in the national competition. He will receive a gold medal and \$15 in cash for the State prize.

Mrs. Warren Harding, Senator Coleman Dupont, Mrs. John Sherman and Dr. William T. Badden, are the members of the committee which will judge for the national prize. The first prize will be a gold watch and a trip to Washington; second, silver loving cup, and third, silver loving cup.

The body of a man identified from personal effects as Frank Wilson, 51, home unknown, was found in

## FRESNO FIGHTS COMBINATION

Well-Known Writer Long in Library Work

(EXCLUSIVE DISPATCH.)

FRESNO, May 1.—Inquiries into recent indications of combination among material dealers or their employees are the next step in the program of the American Industrial Association, or the Valley Industrial Association, it was learned today. There is evidence of such a combine, it is said, but no proof is as yet obtainable. Statisticians in the employ of the association are about to turn the "searchlight of public attention to any such combine."

The method of procedure in the policy of the directors of the Valley Industrial Association is not determined, and the course they may adopt in putting their four principles into effect is problematical. It is hinted, however, that an industrial relations committee soon to be appointed will make overtures to the unions to have a meeting.

Several feet of wire, to which was attached about 100 pounds of chain, was around his neck, indicating suicide.

**WILD SEA VOYAGE**  
Williams Woods and James T. Brady, two young and venturesome San Diegans, will start tomorrow in a twenty-six-foot sloop for Buenos Aires.

The pair will make the trip by way of the Panama Canal, touching at all the Mexican and Central American ports, and will keep within ten miles of land throughout the voyage.

**PREVENT WEDDING**  
Lella Cooley, 17, of Los Angeles, and Eldon Davis, 25, proprietor of a cafe at El Centro, were arrested here today at the Courthouse as they were in the act of obtaining a marriage license, the arrest being made at the request of the El Centro police.

The girl, who is a ward of the Los Angeles probation office, was taken into custody by the El Centro police several days ago on request of the Los Angeles authorities, and was being held pending the arrival of a woman of color from the probation office, to take her back to Los Angeles.

Bring Your Little Child to Our Store Tomorrow

Ask for a demonstration of the Junior Unfolding Two-Level Pedal. Let your own little child sit down to a piano and play—using the pedals!

See how much more interest she takes in playing. For now she can enjoy the real beauty of the instrument. Now, for the first time, she can play with expression.

She Will Be Delighted

Show her the advanced music pedaling makes possible for her—with ease! See how it appeals to her imagination. How it stirs her to enthusiasm. Never need she be driven to practice—with the Junior Pedal!

Compare this with the ordinary piano. She cannot reach the pedals. They might as well not exist. As she plays, the tone has no color, no singing quality. To play properly, with expression, is impossible!

The only piano a child can play properly is the celebrated Lyon & Healy Piano, equipped with the Junior Unfolding Two-Level Pedal.

The Junior Unfolding Two-Level Pedal, shown in its original position. Opened to the higher level, a child can reach it in comfort.

The Pedal Is Vital

Only through the pedal can the full resonance of the piano be brought out. What good, then, is an instrument of fine tone if the child who plays it cannot use the pedal? So reasoned Lyon & Healy—and they developed the Junior Pedal.

This is the greatest piano invention in fifty years! Strongly endorsed by highest authorities. It completes

the piano—at no extra cost.

Exquisitely voiced, uncommonly beautiful, the Lyon & Healy Piano has won world-wide admiration. It presents supreme quality at moderate cost. Adding the Junior Pedal puts it beyond competition.

You Owe This to Your Child

Come in tomorrow for a demonstration—without obligation. Bring your child. Or, if inconvenient to come now, phone or write for free illustrated folder.
